WE'RE HIRING

LOWCODE MINDS

www.lowcodeminds.com

Associate Software Engineers
(Location – Srilanka)

Are you ready to work on Emerging Low-code technologies?

We are focused on delivering innovative low-code hyper automation solutions using an enterprise grade low-code platform called Appian (https://appian.com) . Low-code is the new way to build agile applications to accelerate the business needs. Forrester predicts that by the end of 2021, 75% of development will start using low code platforms. Compared to traditional development, it is 10 times faster, costs half as much to maintain , and can deliver more powerful functionalities (including RPA, AI/ML, IoT etc..) to handle mission critical & complex applications.

We will train you in Appian capabilities including Appian RPA, Appian AI and will coach you to get certified to accelerate your career path.

What are we looking for?

- A Bachelor's Degree in Computer Science or equivalent.

- In depth understanding of Object Oriented Programing concepts and data modelling.

- Willingness to work in emerging technologies such as RPA, AI/ML, NLP, IoT etc....

- A team player with excellent communication and leadership skills.

- Work collaboratively in cross functional global teams in an Agile delivery environment

If you are a team player who is eager to learn, get certified and to accelerate your career path, please send your CVs to bala_vignesh@lowcodeminds.com with the position applied for in the subject header

" Boundless Innovation & Relentless Growth"
